Hebron, Feb. 21, 1898.

Report of School Board.

To the citizens of the town of Hebron, the school board respectfully submit their report for the year ending Aug. 1, 1897.

The fall term of the East Hebron school of eleven weeks was taught by Miss Ada M. Bump of Campton and the spring term of nine weeks by Miss Hattie E. Morse of Plymouth. Both these ladies are teachers of experience, and from our visits to the school room we think the past year has been a profitable one. The teachers have labored diligently, and we are pleased to offer a favorable report.

Both terms of the village school were taught by Miss Celia A. Jewell; she has worked in this same school many terms. In our opinion the leading characteristics of this school are thoroughness and precision. This school has been visited the past year by people engaged in educational work in our cities. They express surprise, not only at the neatness and order, but at the modern ways in which the school was conducted.

ROLL OF HONOR.

Keyes, Mabel Smith, Addie Smith, Edna Smith, Nina Jesseman, Albert Perry, Syd Huckins, Lawrence Keyes, Cedric Morgan, Walker Monier, Claude Jesseman.

ANNUAL REPORT OF THE SCHOOL BOARD.

In presenting this annual report of the schools in the town, your school board is pleased to be able to say that they think the schools have been a success.

We have been able to secure the services of teachers of experience, and to retain those whose services we considered beneficial. The successful teacher's work is not confined to six hours a day, they spend many hours each week outside the school room in preparation for the next day in correcting written lessons, and in many other ways to benefit their school.

The difficulty of procuring suitable teachers becomes greater every year. The attraction of city life and graded schools are more agreeable than small country schools. No position is more exacting than that of teachers, none requiring greater tact or patience.

The teacher's position is one of responsibility, their duty is not only to teach the children but to instill into their minds love for all that is good and abhorrence of all that is evil, and try to place them upon the right path to happiness, honor and virtue that they may become useful citizens in the community.

But it is to be remembered that a scholar has not done all he can or ought by being regular in his attendance at school. They are to be at school for the purpose of learning. The teacher at best can only assist the pupil, she cannot make them learn if they will not adapt their minds to their books and study.

That our young women and men leave us largely as fast as fitted for life battles, should not discourage us or lead us to take less interest in the fitting. It is an old saying that "Ignorance is the parent of vice," therefore if as a nation or a people we wish to prosper we must guard with care our common schools. Would you know of the work done in our schools—visit them. The mothers do but "the fathers where are they"? Remember you will always be welcome. Much of the responsibility for a good school should be placed where it belongs in the home.

In closing our report for the year we wish to express to the town our appreciation of their interest in education by the founding of the town library and to thank all for the interest they have taken in the schools for the past year.

Respectfully submitted,

CELIA A. JEWELL,
SADIE L. GEORGE,
ELLEN E. ROGERS,

School Board.
